

PRO-VAC N85 NYLON PEEL PLY

Description:

- An 85 g/m² heat set and scoured nylon 6,6 peel ply fabric.
- Designed for all composite processing.
- Has a red tracer as a visible indicator to reducing the possibility of any peel ply being left on the laminate.
- The fabric leaves a finish that can aid in the sanding or grinding of the laminate.
- We do not recommend this product to be used with Phenolic resins.

Technical data:

Part number	PRO-VAC N85
Colour	Natural with red colour tracer
Width	0-1500 mm
Length	100m/roll
Area Weight	85 g/m ² ±3%
Maximum use temperature	210°C

*please note that the maximum use temperature is process specific, therefore we recommend that tests are performed on the peel ply prior to use at elevated temperatures.

Packaging and storage

It is recommended that the peel ply are stored in a cool and dry environment. Recommended temperature range of storage is between 10 ~ 30°C and relative humidity between 50 ~ 75%. The peel ply should remain in the packaging until just prior to use.
