

PRO-VAC T-TAPE

Pressure sensitive tape Teflon tape

Description:

- High tensile strength and low elongation properties.
- Excellent release properties and very easy to strip after use.
- Ideal to be used as a surface release on mould flanges and to cover joins when using the MLR-5 mould release product.

Technical data:

Part number	PRO-VAC T-TAPE
Widths	25 mm and 50 mm
Roll length	33 m
Maximum use temp	260°C
Carrier	PTFE
Adhesive type	Silicone
Colour	Grey
Total thickness	90µ
Adhesion	279.03 g/cm

Packaging and storage

The tape can be stored for maximum 6 months from the date of production in dry conditions and in its original packaging. The material should be protected from extreme temperatures and direct sunlight. Once removed from its original packaging, the tape should be protected from dust and other impurities. Keep the rolls in horizontal position.
